

UINTAH COUNTY (UTAH). COUNTY RECORDER

[1233]

MINING RECORDS, 1889#

38 microfilm reels

DESCRIPTION: Mining records, which constitute a legal record, are kept by the county recorder for the purpose of monitoring and registering mining claims and operations. Mining records contain notices of location which provide the name of the claim, locators, location, legal description and the mining district; proofs of labor which record the work performed at each mine annually; and deeds which record information affecting the title to the mining property.

Until the law changed in 1897 mining districts in Utah had the option of electing their own mining district recorder. Many of the larger mining districts within Utah chose to elect their own recorders while claims and other records within smaller mining districts or in unorganized areas were filed with the county recorder. Beginning in 1897, all mining records in the county were filed with the county recorder.

ARRANGEMENT: Chronological by date filed.

RESEARCH NOTE: Volumes S and T comprise series 22522 and series 22523.

RELATED RECORDS: Series 6138, MINING RECORDS INDEXES, 1887#[ongoing], provides access to this series. Series 22523, MINING NOTICES OF LOCATION, 1903, contains locations and descriptions of the same mining claims. Series 22522, MINING DEEDS, 1903#1905, contains deeds for the same mining operations.

PROCESSING NOTE: Mining records were first scheduled as permanent records in 1971. The mining records were filmed by the Uintah County Recorder in 1991. The entire series was archivally processed by David Clark in January 2000.
